| <b>Subject Code:</b>     | TECH4200                        |
| <b>Subject Name:</b>     | Website Development             |
| <b>Assessment Title:</b> | Coding Assignment – Development |
| <b>Assessment Type:</b>  | Individual                      |
| <b>Word Count:</b>       | 1500 Words (+/-10%)             |
| <b>Weighting:</b>        | 30 %                            |
| <b>Total Marks:</b>      | 30                              |
| <b>Submission:</b>       | Via MyKBS                       |
| <b>Due Date:</b>         | Week 9                          |

## Your Task

This assessment is to be completed individually. In this assessment, you will develop a practical assessment that allows you to showcase your skills in using HTML, CSS, and JavaScript to design, develop, and debug a website.

## Assessment Description

The assessment will require students to create a fully functional website using HTML, CSS, and JavaScript. You will be tasked with designing a multi-page website and implementing interactive elements using JavaScript. Additionally, students will be required to debug any issues that may arise during the development process.

This assessment aims to achieve the following subject learning outcomes:

|     |                                                                |
|-----|----------------------------------------------------------------|
| LO2 | Use HTML, CSS, and JavaScript in the development of a website. |
| LO3 | Design, develop and debug a website.                           |

## Assessment Instructions

1. **Submission:** Students should submit the entire project folder, including HTML, CSS, and JavaScript files, as well as any additional assets (images, fonts, etc.) used in the website.
2. **Assessment Task:** Create a multi-page website on a topic of your choice using HTML, CSS, and JavaScript.
3. The requirements of this assessment are as follows:
  - a) The website should consist of at least five interconnected pages, each with a unique purpose and layout.
  - b) The website design should be visually appealing, and CSS styling should be used to enhance the aesthetics and user experience.
  - c) Utilise JavaScript to add interactive elements to the website, such as buttons, forms, or image sliders.
  - d) Ensure that the website is responsive and displays correctly on both desktop and mobile devices.
  - e) Debug any issues or errors that may arise during the development process to ensure the website's smooth functionality.
4. Please refer to the assessment marking guide to assist you in completing all the assessment criteria.

## Important Study Information

### Academic Integrity and Conduct Policy

<https://www.kbs.edu.au/admissions/forms-and-policies>

KBS values academic integrity. All students must understand the meaning and consequences of cheating, plagiarism and other academic offences under the Academic Integrity and Conduct Policy.

Please read the policy to learn the answers to these questions:

- What is academic integrity and misconduct?
- What are the penalties for academic misconduct?
- How can I appeal my grade?

### Late submission of assignments (within the Assessment Policy)

<https://www.kbs.edu.au/admissions/forms-and-policies>

| Number of days late | Penalty                                                                                                                                                                                                                                                                                                 |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1* - 9 days         | 5% per day for each calendar day late deducted from the total marks available.                                                                                                                                                                                                                          |
| 10 - 14 days        | 50% deducted from the total marks available.                                                                                                                                                                                                                                                            |
| After 14 days       | Assignments submitted more than 14 calendar days after the due date will not be accepted and the student will receive a mark of zero for the assignment(s) unless special consideration, reasonable adjustment or an alternative factor related to compassionate circumstances is approved and applied. |

*\*Assignments submitted at any stage within the first 24 hours after the deadline will be considered to be one day late and therefore subject to the associated penalty.*

### Length Limits for Assessments

Penalties may be applied for assessment submissions that exceed prescribed limits.

### Study Assistance

Students may seek study assistance from their local Academic Learning Advisor or refer to the resources on the [MyKBS Academic Success Centre](#) page. Further details can be accessed at <https://elearning.kbs.edu.au/course/view.php?id=1481>

### Submission Requirements

All assessments including draft copies must be written and submitted in English. The use of translation tools is not permitted.

## Generative AI Traffic Lights

Please see the level of Generative AI that this assessment is Level 2 has been designed to accept:

| Traffic Light | Amount of Generative Artificial Intelligence (GenerativeAI) usage                                                                                                                                                                                                                                                                                                                                                                                                                                        | Evidence Required                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | This assessment (✓) |

Ensure you follow the specific assessment instructions in the section above.</p> |                     |

For this assessment, using GenAI is optional.

You CAN:

- ✓ Use GenAI/ChatGPT to understand concepts, create ideas, and generate content. You must present your own reflection and understanding.
- ✓ Use the ideas/information generated by GenAI after cross-referencing them with other reliable sources. You must reference all resources used including GenAI

You CANNOT:

- × Copy and paste the response generated by GenAI in your submission.
- × Copy and paste assessment instructions into GenAI as it is KBS's intellectual property.
- × Depend only on the responses provided by GenAI.

**Attention: Directly copying responses without critical engagement, no proper citation, or using GenAI against assessment instructions, will be penalised.**

**Engaging in any form of academic misconduct, such as plagiarism, collusion, falsification of research or data, and improper use of AI tools, will lead to various penalties.**

## Assessment Marking Guide

| Marking Criteria<br>____  30 marks                                     | F (Fail)<br>0 – 49%                                                                                        | P (Pass)<br>50 – 64%                                                                                          | C (Credit)<br>65 – 74%                                                                                                                      | D (Distinction)<br>75 – 84%                                                                                                                                | HD (High Distinction)<br>85 – 100%                                                                                                                                                                        |
